

## Our 6-month Virtual Incubation Programme (VIP) for Entrepreneurs

Your entrepreneurial programmes are running at home and you may already be involved in professional support networks. That’s great, we now want you to be successful in international business with special reference to the German market. With us you are no longer tied to a programme of lectures with set times and locations. Just choose your appropriate 6-month-period, exactly when you are ready for internationalisation.

According to your expansion plans, we will lead you to an enhancement and adaptation of your current business model and – at the same time – you will enter the European market with our Virtual Office Berlin. We will work together with a high practical relevance outside the framework of conventional lectures.

### Our Programme in Detail

*„Our programme is transformational: we offer a variety of new strategies for entering European markets. Learning and doing are closely interlinked.“*

**Dipl.-Oec. Bernd Röcken**, Programme Instructur, CEO Business Routes

## Virtual Incubation Programme (VIP)

### Expression of Interest - Registration Form

Please scan and submit your EoI to **office@business-routes.com**
